

**WRC-2000**

WORLD  
RADIOCOMMUNICATION  
CONFERENCE

**Addendum 17 to  
Document 12-E  
6 May 2000  
Original: English**

ISTANBUL, 8 MAY – 2 JUNE 2000

---

**WORKING GROUP 2  
OF THE PLENARY**

**United States of America**

**PROPOSALS FOR THE WORK OF THE CONFERENCE**

**PROPOSALS FOR AGENDA ITEM 7.2**

to recommend to Council items for inclusion in the agenda for the next WRC, and  
to give its views on the preliminary agenda for the subsequent conference and on  
possible agenda items for future conferences

**1 Proposal for the agenda for the 2003 World Radiocommunication  
Conference**

**Background information**

The United States proposal for the agenda of WRC-03 is contained in Resolution [WRC-03].

ADD USA/12/309

## RESOLUTION [WRC-03] (WRC-2000)

**Agenda for the 2003 World Radiocommunication Conference**

The World Radiocommunication Conference (Istanbul, 2000),

*considering*

- a) that, in accordance with Nos. **118** and **126** of the Convention (Geneva, 1992), the general scope of the agenda for a world radiocommunication conference should be established four years in advance and a final agenda shall be established two years before the conference;
- b) Article 13 of the Constitution (Geneva, 1992) regarding the competence and scheduling of world radiocommunication conferences and Article 7 of the Convention (Geneva, 1992) regarding their agendas;
- c) the relevant Resolutions and Recommendations of previous world administrative radio conferences (WARCs) and world radiocommunication conferences (WRCs),

*recognizing*

- a) that this Conference has identified a number of urgent issues requiring further examination by WRC-03;
- b) that in preparing this agenda, many proposals from administrations could not be included and have had to be deferred to future conference agendas,

*resolves*

to recommend to Council that a world radiocommunication conference be held in early 2003 for a period of three or four weeks, with the following agenda:

- 1 to take appropriate action in respect of those urgent issues that were specifically requested by the 2000 World Radiocommunication Conference (WRC-2000);
- 2 on the basis of proposals from administrations and the Report of the Conference Preparatory Meeting, and taking account of the results of WRC-2000, to consider and take appropriate action in respect of the following topics:
  - 2.1 requests from administrations to delete their country footnotes or to have their country name deleted from footnotes, if no longer required, taking into account Resolution **26 (Rev.WRC-97)**;
  - 2.2 to consider the upgrade of allocations to the radiolocation service in the bands around 3 GHz and around 5.5 GHz;
  - 2.3 to consider spectrum requirements for wideband aeronautical telemetry in the band between 3 GHz and 30 GHz;
  - 2.4 to consider moving the existing additional allocation of the 7 145-7 235 MHz band on a primary basis pursuant to No. **S5.460** to within the frame of the Table of Frequency Allocations;

- 2.5 to consider inclusion in the Radio Regulations of power flux-density limits, in accordance with ITU-R Recommendation S.[Doc. 4/54], to protect the feeder uplinks of non-geostationary mobile-satellite service systems operating in the fixed-satellite service at 5 GHz pursuant to No. **S5.447A**;
- 2.6 examination of the adequacy of the frequency allocations for HF broadcasting from about 4 MHz to 10 MHz, taking into account the seasonal planning procedures adopted by WRC-97, and to consider bringing forward the date of availability of the HF bands allocated by WARC-92 to the broadcasting service in response to Resolution **29 (WRC-97)** and Resolution **537 (WRC-97)**;
- 2.7 to consider realignment of the allocations to the amateur, amateur-satellite, and broadcasting services around 7 MHz on a worldwide basis, taking into account Recommendation **718 (WARC-92)**;
- 2.8 possible allocations to passive services in the frequency bands above 275 GHz;
- 2.9 to consider an extension to the upper end of the current allocations to the EESS (active) and space research (active) from 5 460 MHz up to 5 570 MHz for the purpose of providing additional spectrum for spaceborne radio-altimetry and synthetic aperture radar imaging;
- 2.10 to consider the regulatory and technical provisions for satellite networks using highly elliptical orbits;
- 2.11 review allocations to the space research service (deep space) (space-to-Earth) and the inter-satellite service in the frequency range 32-32.3 GHz with a view to improving the sharing conditions between these services;
- 2.12 to consider possible extension of the allocation to the mobile-satellite service (Earth-to-space) on a secondary basis in the band 14-14.5 GHz to permit the aeronautical mobile-satellite service as stipulated in Resolution **216 (Rev.WRC-2000)**;
- 2.13 to examine the spectrum requirements for telemetry, tracking, and telecommand of FSS networks operating with service links in the frequency bands above 17 GHz;
- 3 to examine the revised ITU-R Recommendations incorporated by reference in the Radio Regulations which have been communicated by the 2003 Radiocommunication Assembly, in accordance with Resolution **28 (WRC-95)**; and decide whether or not to update the corresponding references in the Radio Regulations, in accordance with the principles contained in the Annex to Resolution **27 (Rev.WRC-97)**;
- 4 to take actions consequential to resolutions of the Plenipotentiary Conferences, including review of procedures for satellite networks under Resolution **86** (Minneapolis, 1998);
- 5 to consider such consequential changes and amendments to the Radio Regulations as may be necessitated by the decisions of the Conference;
- 6 in accordance with Resolution **95 (WRC-97)**, to review the Resolutions and Recommendations of previous conferences with a view to their possible revision, replacement or abrogation;
- 7 to review, and take appropriate action on, the Report from the Radiocommunication Assembly submitted in accordance with Nos. **135** and **136** of the Convention (Geneva, 1992);
- 8 to identify those items requiring urgent action by the radiocommunication study groups;

9 in accordance with Article 7 of the Convention (Geneva, 1992):

9.1 to consider and approve the Report of the Director of the Radiocommunication Bureau on the activities of the Radiocommunication Sector since WRC-2000;

9.2 to recommend to Council items for inclusion in the agenda for the 2005/6 World Radiocommunication Conference,

*invites Council*

to finalize the agenda and arrange for the convening of WRC-03 and to initiate as soon as possible the necessary consultation with Member States,

*instructs the Director of the Radiocommunication Bureau*

to make the necessary arrangements to convene meetings of the Conference Preparatory Meeting and to prepare a Report to WRC-03,

*instructs the Secretary-General*

to communicate this Resolution to concerned international and regional organizations.

**Reasons:** Draft resolution for the next WRC.

## 2            **Proposal for the preliminary agenda for the 2005/6 World Radiocommunication Conference**

### **Background information**

The United States proposal for the preliminary agenda for WRC-2005/6 is contained in Resolution [WRC-05/06].

**ADD**        USA/12/310

### **DRAFT RESOLUTION [WRC-05/06] (WRC-2000)**

#### **Preliminary agenda for the 2005/6 World Radiocommunication Conference**

The World Radiocommunication Conference (Istanbul, 2000),

*considering*

*a)*            that, in accordance with Nos. **118** and **126** of the Convention of the International Telecommunication Union (Geneva, 1992), the general scope of the agenda for the 2005/6 World Radiocommunication Conference (WRC-05/06) should be established six years in advance;

*b)*            Article 13 of the Constitution of the International Telecommunication Union (Geneva, 1992) regarding the competence and scheduling of world radiocommunication conferences and Article 7 of the Convention (Geneva, 1992) regarding their agendas;

*c)*            the relevant Resolutions and Recommendations of previous world administrative radio conferences (WARCs) and world radiocommunication conferences (WRCs),

*resolves to give the view*

that the following items should be included in the preliminary agenda of WRC-06, to be held in 2005/6:

1            to take appropriate action in respect of those urgent issues that were specifically requested by the 2003 World Radiocommunication Conference (WRC-03);

2            on the basis of proposals from administrations and the Report of the Conference Preparatory Meeting, and taking account of the results of WRC-2000, to consider and take appropriate action in respect of the following topics:

2.1            to consider Appendix **S13** and Resolution **331 (Rev.WRC-97)** with a view to their deletion and, if appropriate, consider related changes to Chapter SVII and other provisions of the Radio Regulations as necessary, taking into account the continued transition to the Global Maritime Distress and Safety System (GMDSS).

2.2            to consider the results of studies, and take necessary actions relating to shore-to-ship distress communication priorities (Resolution **348 (WRC-97)**);

2.2.1            to consider primary allocations to space research (passive) in existing primary radio astronomy bands below 10 GHz, excluding 322-328.6 MHz;

2.2.2            to review studies and related allocations if appropriate to the non-GSO MSS < 1 GHz in the 470-862 MHz band (Resolution **728 (WRC-97)**);

2.2.3 to review studies and related allocations if appropriate to the non-GSO MSS < 1 GHz in the 405-406 MHz band (Resolution **219 (WRC-97)**);

3 to consider such consequential changes and amendments to the Radio Regulations as may be necessitated by the decisions of the Conference;

4 in accordance with Resolution **95 (WRC-97)**, to review the Resolutions and Recommendations of previous conferences with a view to their possible revision, replacement or abrogation;

5 to review, and take appropriate action on, the Report from the Radiocommunication Assembly submitted in accordance with Nos. **135** and **136** of the Convention (Geneva, 1992);

6 to identify those items requiring urgent action by the radiocommunication study groups;

7 in accordance with Article 7 of the Convention (Geneva, 1992):

7.1 to consider and approve the Report of the Director of the Radiocommunication Bureau on the activities of the Radiocommunication Sector since WRC-03;

7.2 to recommend to Council items for inclusion in the agenda for the 2009 World Radiocommunication Conference,

*invites Council*

to consider the views given in this Resolution,

*instructs the Director of the Radiocommunication Bureau*

to make the necessary arrangements to convene meetings of the Conference Preparatory Meeting and to prepare a report to WRC-05/06,

*instructs the Secretary-General*

to communicate this Resolution to concerned international and regional organizations.

**Reasons:** United States proposed agenda items for WRC-05/06.
